

5

wherein at least one of said cabins is equipped as a restaurant and/or a bar, and the servicing units contain blocks for preparing and/or storing food;

wherein said servicing units include a waste bin; and

wherein guides are mounted on said base for delivering said waste bin in an empty condition and removing said waste bin in a filled condition during motion of the cabins.

2. The amusement ride according to claim 1, wherein said at least one cabin contains tables, seats, elements of kitchen equipment, and a working station for servicing personnel.

3. The amusement ride according to claim 2, wherein: said at least one cabin comprises a car and a rotatable platform provided in said car;

said platform comprises a central part and a circumferential part;

said tables and seats are positioned on the circumferential part of said platform; and

the elements of kitchen equipment and the working station for the servicing personnel are positioned on the central part of said platform.

4. The amusement ride according to claim 2, wherein:

said at least one cabin comprises a base having a central part and a rotating platform surrounding said central part;

said tables and seats are positioned on the rotating platform; and

the elements of kitchen equipment and the working station for the servicing personnel are positioned on the central part.

5. The amusement ride according to claim 1, wherein said at least one cabin includes a toilet.

6. An amusement ride comprising:

a base;

stationary components mounted on said base;

assemblies that are mobile relative to said stationary components;

cabins that are fastened on said mobile assemblies; and

units for loading, servicing and unloading passengers, said units being mounted on said base;

wherein at least one of said cabins is equipped as a restaurant and/or a bar, and the servicing units contain blocks for preparing and/or storing food;

wherein said servicing units include a waste bin; and

wherein said at least one cabin has a lower part, and a separate block is provided in the lower part of said at least one cabin for housing said waste bin.

7. The amusement ride according to claim 6, wherein said at least one cabin contains tables, seats, elements of kitchen equipment, and a working station for servicing personnel.

8. The amusement ride according to claim 7, wherein: said at least one cabin comprises a car and a rotatable platform provided in said car;

said platform comprises a central part and a circumferential part;

said tables and seats are positioned on the circumferential part of said platform; and

the elements of kitchen equipment and the working station for the servicing personnel are positioned on the central part of said platform.

9. The amusement ride according to claim 7, wherein:

said at least one cabin comprises a base having a central part and a rotating platform surrounding said central part;

6

said tables and seats are positioned on the rotating platform; and

the elements of kitchen equipment and the working station for the servicing personnel are positioned on the central part.

10. The amusement ride according to claim 6, wherein said at least one cabin includes a toilet.

11. An amusement ride comprising:

a base;

stationary components mounted on said base;

assemblies that are mobile relative to said stationary components;

cabins that are fastened on said mobile assemblies; and

units for loading, servicing and unloading passengers, said units being mounted on said base;

wherein at least one of said cabins is equipped as a restaurant and/or a bar, and the servicing units contain blocks for preparing and/or storing food;

wherein said stationary components and said assemblies that are mobile relative to said stationary components constitute a panoramic wheel;

wherein said panoramic wheel is continuously rotatable; and

wherein said at least one cabin is provided with a separate door aperture for delivery of foodstuffs and accessories into said at least one cabin during motion of said at least one cabin.

12. The amusement ride according to claim 11, wherein said at least one cabin contains tables, seats, elements of kitchen equipment, and a working station for servicing personnel.

13. The amusement ride according to claim 12, wherein:

said at least one cabin comprises a car and a rotatable platform provided in said car;

said platform comprises a central part and a circumferential part;

said tables and seats are positioned on the circumferential part of said platform; and

the elements of kitchen equipment and the working station for the servicing personnel are positioned on the central part of said platform.

14. The amusement ride according to claim 12, wherein:

said at least one cabin comprises a base having a central part and a rotating platform surrounding said central part;

said tables and seats are positioned on the rotating platform; and

the elements of kitchen equipment and the working station for the servicing personnel are positioned on the central part.

15. The amusement ride according to claim 11, wherein said at least one cabin includes a toilet.

16. An amusement ride comprising:

a base;

stationary components mounted on said base;

assemblies that are mobile relative to said stationary components;

cabins that are fastened on said mobile assemblies; and

units for loading, servicing and unloading passengers, said units being mounted on said base;

wherein at least one of said cabins is equipped as a restaurant and/or a bar, and the servicing units contain blocks for preparing and/or storing food;

7

wherein said stationary component comprises an axle directed upward from said base, and said mobile assemblies comprise a driving wheel; and

wherein said base comprises a roof of a building.

17. The amusement ride according to claim 16, wherein said axle is located on said roof near a corner of said roof so that the cabins partially rotate outside said roof.

18. The amusement ride according to claim 16, wherein said axle is positioned at an angle relative to a plane of said roof.

19. The amusement ride according to claim 18, wherein said angle is changeable during operation of the amusement ride.

20. The amusement ride according to claim 16, wherein said at least one cabin contains tables, seats, elements of kitchen equipment, and a working station for servicing personnel.

21. The amusement ride according to claim 20, wherein: said at least one cabin comprises a car and a rotatable platform provided in said car;

8

said platform comprises a central part and a circumferential part;

said tables and seats are positioned on the circumferential part of said platform; and

the elements of kitchen equipment and the working station for the servicing personnel are positioned on the central part of said platform.

22. The amusement ride according to claim 20, wherein: said at least one cabin comprises a base having a central part and a rotating platform surrounding said central part;

said tables and seats are positioned on the rotating platform; and

the elements of kitchen equipment and the working station for the servicing personnel are positioned on the central part.

23. The amusement ride according to claim 16, wherein said at least one cabin includes a toilet.
